

SAINT PHILIP SCHOOL CARDINAL CAMPS!

Week of July 18-July 22
9:00 a.m. ~ 12:00 noon

CALCULATING CARDINALS

For students entering Grades 5-8

WANTED: MATH ENTHUSIASTS!

Do you like math? Would you like to? Come play with patterns, quicken your computation, and focus on the fun of fractions. This is not "skill and drill" ~ it's an invitation to come and experience the FUN of mathematics!

Participants will engage in activities, games, and art projects that enrich their knowledge, extend their thinking, and connect math to their world. Calculating Cardinals campers will take away a new excitement of math each day, and a game or activity to share with family & friends!

Coordinator: Mrs. Martha Venter

INTRODUCTION TO SIGN LANGUAGE

For students entering Grades 2-5

Children will be introduced to an exciting new language that will enable them to talk with their hands! Using games and puzzles, and with different daily themes, students will learn the alphabet, practice finger spelling, and be introduced to a sign language vocabulary of more than one hundred words!

Come join us! Experience a new, more positive meaning to the phrase: "Talk to the hand!"

Coordinator: Mrs. Elaine Pavao

CRAFTY CARDINALS

For students entering Grades 2-5

Cherish all of your precious memories by creating a scrapbook! Come and scrapbook with your buddies as you create works of art that hold your most precious memories. Each day will focus on a different theme and you will create a page for each theme in your scrapbook. All you need to do is to bring a scrapbook of your choosing, your favorite photos (pictures with themes of *faith, family, fun, and friendship*), and your imagination - we will provide the rest! Join our Crafty Cardinals group!

Coordinator: Mrs. Lisa Conti

MAD SCIENCE

For students entering Grades K-2

Children will become scientists for the week as they learn about various science topics utilizing the scientific method. Each day children will document their experiments in a journal, create and take home projects, play games, and make snacks! Daily themes include *All About Water, All About Chemical Reactions, Simple Machines, Cool Science, and Open Ended Exploration*.

Coordinator: Mrs. Stacey McDuffee

REGISTRATION FEES

\$115 per student ~ school/parish family
\$125 per student ~ non-school/parish family

LIMITED OPENINGS AVAILABLE!
MAXIMUM 12 STUDENTS PER CAMP
(24 max. for Calculating Cardinals)

A minimum of 6 enrolled students are needed for each camp. If we exceed maximum enrollment and receive enough requests to add more classes, another session may be added the week of July 25-29.
