PARENT QUESTIONNAIRE ~ EARLY LEARNERS (Little Cardinals / Pre-K / Kindergarten)

Parents: Please respond to the following questions about your child, providing details where possible. Feel free to use additional paper if necessary.

STUDENT'S NAME	CURRENT SCHOOL (if any)
Tell about a time your child felt proud of him/herself.	
How does your child react to success?	
How does your child react to disappointments/challenges?	
All Early Learners must be fully potty trained prior to the start of the school year. Please describe at what stage your child is, currently, with this process.	
Describe your child's infancy/toddlerhood experiences, specifically sleeping, eating and separation from parents. Feel free to include other areas you feel are significant.	

Describe a typical weekday in your child's life (wake time, school, nap, playtime, bedtime, etc.).

How does your child respond to redirection from you and accept responsibility for behavior?

Does your child have siblings? If yes, describe their typical interactions with each other.

How does your child solve problems or resolve conflicts among peers/siblings?

Describe something your child has done/said that demonstrates his/her creativity and/or imagination.

Does your child play/interact primarily with peers, siblings, or parents? Explain.

How does your child work/play as a member of a small group? Large group? Independently?

What does your child like to play with? What types of toys? What activities does he/she enjoy?

List some of the group experiences in which your child has taken part (school, church, sports, etc.).

In what ways has your child shown school readiness?

Describe your child's interest in reading, writing, science, social studies and math.

How would you describe your child's experience with religion and understanding of his/her faith?

How does our mission statement align to your family's vision for your child's education and your family's values?

Please check the box that, in your opinion, most closely describes your child's skills in each area.
